

DUTY STATEMENT

1. POSITION INFORMATION	
Civil Service Classification Information Technology Specialist I	Working Title Infrastructure Specialist
Employee Name Vacant	Position Number 791-750-1402-016
Project/Division Name Child Welfare Digital Services	Supervisor's Name Jesse Madeiros
Unit Infrastructure	Supervisor's Classification Information Technology Supervisor II
Physical Work Location 2870 Gateway Oaks Drive, Sacramento, 95833	Duties Based on: ☒ Full Time ☐ Part Time - Fraction Click here to enter text.
Effective Date TBD	
2. REQUIREMENTS OF POSITION	
Check all that apply: ☒ Conflict of Interest Filing (Form 700) Required ☐ Requires Fingerprinting & Background Check ☒ May be Required to Work in Multiple Locations ☒ Other (<i>specify below in Description</i>) Description of Position Requirements (e.g., the position may move from project to project upon business need, managing staff at an alternate location, graveyard/swing shift, frequent travel, etc.): Remote Centered. Hybrid workplace environment. Telework available based on business need. The incumbent will participate in an on-call rotation for Infrastructure Incidents. While on-call, the incumbent will carry a cell phone and be available for duty 24x7. This position may require frequent statewide travel.	
3. DUTIES AND RESPONSIBILITIES OF POSITION	
IT Domains used: ☒ Business Technology Management ☒ Information Technology Project Management ☒ Client Services ☐ Software Engineering ☐ Information Security Engineering ☒ System Engineering Summary Statement (Briefly describe the position's organizational setting and major functions): Under the direction of the CWDS Infrastructure Manager, Information Technology Supervisor II, the Information Technology Specialist I (ITS I), works independently to oversee and maintain the operational health of the Office of Technology and Solutions Integration (OTSI) Child Welfare Digital Services (CWDS) County and State Projects, Network Infrastructure, CWDS Application Support, and Infrastructure support. The ITS I, provides support on a variety of the most complex network support services which includes troubleshooting incidents, network equipment, installation, vendor support and project assignments. This position is also responsible for analysis, coordination, customer, and vendor support which includes the California Department of Technology. The ITS I will also be an ongoing contributor to the CWDS applications including the development and ongoing operations support of a complex, cloud-native environment that supports a mission critical service delivery environment using Agile methodology and continuous integration / continuous delivery (CI/CD).	
Percentage of Duties 45%	Essential Functions Network installations and Maintenance in support of customer services for CWDS User Groups: Install and configure virtual and/or on-prem network equipment including but not limited to LAN switches, servers, firewalls and CWDS/OTSI projects.

30%	• Provide troubleshooting and resolution support for various network technologies including but not limited to LAN switches, network load balancers, firewalls, Virtual Private Networks (VPN), Virtual and Private Cloud computing, Wireless networks. • Respond to and troubleshoot the most complex customer and network related incidents. • Monitor, respond, and update asset tracking tools, and Change/Incident Management systems. • Install operating system upgrades and patches for various server and network devices. • Oversee vendor installation of copper and fiber optic cabling to internal and external customer specifications. • Collaborate with vendors to troubleshoot, isolate, and resolve network connectivity problems. • Provide complex Infrastructure Disaster Recovery support for customers during testing on an ongoing basis. • Use a variety of network management tools to install, configure, and manage networking equipment as required. • Maintain HQ LAN and closet wiring and patch upgrades. • Incident Response (occasionally after hours and weekends). Infrastructure Team Operational Support: • Obtain and implement CWDS network hardware located at customer locations locally. • Install or remove network equipment, work on CWDS projects, and/or resolve network issues. • Research, evaluate and recommend, network capacity, components, circuit types, configurations per customer request or Project requirements. • Provide support for wireless telecommunications devices. • Coordinate server cabinet installation or redesign with appropriate CWDS staff. • Facilitate weekly Configuration and Design or other meetings. • Update Project documentation using automated tools (i.e., Jira, Service Now).
20%	Network Analysis and Documentation: • Consult with stakeholders to identify infrastructure system requirements and recommend technology, hardware, software, plans installation. • Document and maintain appropriate processes, procedures, and description status for each install, including problem installs. • Troubleshoot, track, and conduct root cause analysis of system/database/operational issues utilizing standard procedures until resolved or escalated. • Develop and revise operational requirements and procedures. Analyze equipment and performance requirement trade-offs. • Design, implement, and maintain system architecture across multiple platforms and pipelines in Amazon Web Services (AWS) or similar cloud environment like Microsoft Azure. • Configure containerization technologies (e.g., Kubernetes, Docker, AWS Fargate, and Salesforce). • Configure and implement user's access control and enterprise identity federation with cloud Identity Access Management (IAM) services such as AWS Cognito and Okta • Develop and manage infrastructure configuration automation via automation tools (e.g., Ansible)
Percentage of Duties	Marginal Functions
5%	Perform other duties as assigned.

4. WORK ENVIRONMENT (Choose all that apply from the drop-down menus)		
Standing: Rarely (1-6%)	Sitting: Frequent (51-75%)	
Walking: Infrequent (7-12%)	Temperature: Temperature Controlled Office Environment	
Lighting: Artificial Lighting	Pushing/Pulling: 1-25% of the time	
Lifting: 26-50% of the time	Bending/Stooping: 1-25%	
Other: Remote Centered. Hybrid workplace environment. Telework available based on business need. <i>The incumbent will participate in an on-call rotation for Infrastructure Incidents. While on-call, the incumbent will carry a cell phone and be available for duty 24x7. This position may require frequent statewide travel.</i>		
Type of Environment: a. Cubicle b. High Rise		
Interaction with Public: a. Required to assist customers on the phone and in person. b. N/A c. N/A.
